

RUSSELL JENSEN

Menomonie, WI | (320) 733-4346 | russelljensen207@gmail.com | Portfolio / GitHub / LinkedIn

PROFESSIONAL SUMMARY

Versatile Computer Science student and IT Specialist with strong technical abilities spanning software development, systems administration, network infrastructure, and hardware repair. Experienced in delivering high-quality help desk support, deploying automated scripts, and configuring cloud environment security policies. Possesses a deep passion for technology extending into game development, 3D art pipeline creation, and local homelabbing.

CORE TECHNICAL CAPABILITIES

Programming Languages: Python, Java, C++, C, JavaScript, HTML, CSS, Lua, PowerShell	IT Operations & Help Desk: Tier 1/2 Support, SLA Management, Ticketing, User Onboarding/Offboarding
Networking & Systems: LAN/Wi-Fi Setup, VPN, TCP/IP, DNS/DHCP, Entra ID (Azure AD), M365 Admin	Hardware & Repairs: PC Custom Builds, Laptop Maintenance, Diagnostics, Peripheral & POS Support
Game Dev & Design Tools: Game Engine Scripting, Pixel Art Creation, 3D Modeling (Blender), Asset Integration	Systems & Tools: Linux/Windows OS, Git/GitHub, Hyper-V/Proxmox, Intune/MDM, Docker

TECHNICAL EXPERIENCE & PROJECTS

IT Support & Technical Specialist — Professional Help Desk Work

2020 – Present

- Diagnosed and resolved hardware, software, and network issues for local and remote users under strict SLA deadlines.
- Executed user identity lifecycle management in M365 and Entra ID (Azure AD), including security group and license assignments.
- Performed component-level hardware repair, system upgrades, and peripheral maintenance across various desktop and mobile platforms.

Personal Homelab & Software Development — Independent Projects

2023 – Present

- **Homelab Infrastructure:** Self-hosted local cloud applications, media servers, and virtualized lab networks using Proxmox/Hyper-V to practice firewall configurations, network routing, and containerization.
- **Game Development & Design:** Programmed interactive gameplay mechanics in Lua and C++, creating original 2D pixel art sprites, animation sheets, and 3D environment models.
- **PowerShell Automation:** Scripted automated user provisioning and system diagnostic tools to streamline repetitive IT tasks.

EDUCATION & CERTIFICATIONS

University of Wisconsin–Stout — Bachelor of Science in Computer Science

Expected 2029

- Relevant Coursework: Computer Networks, Operating Systems, Systems Administration, Data Structures & Algorithms.

Certifications: CompTIA A+ | Microsoft Certified: M365 Fundamentals (MS-900)

Active

INTERESTS & PERSONAL HOBBIES

- **Tech & Creative:** Homelabbing & Self-Hosting, Game Development, Pixel Art & Animation, 3D Modeling (Blender)
- **Personal & Recreation:** Strategic Chess, Reading (Tech & Sci-Fi), Competitive & Recreational Volleyball
